SUDIP SOJITRA

FULL STACK DEVELOPER

I am full stack web developer. I can do everything from designing and developing the front end of a website to building and maintaining the back end. I am proficient in a variety of programming languages and frameworks, including HTML, CSS, JavaScript, Python, and Django. I am also familiar with databases, such as MySQL. I am a creative and problem-solving individual with a passion for web development. I am always looking for new challenges and opportunities to learn and grow as a developer.
